

# Maine Resources

## Member/Stakeholder Groups

### Maine Clean Communities

State-wide coalition funded by the DOE to promote and implement alternative fuel vehicles and technology.

### Drive Electric Maine

The state's first public and private-sector electric vehicle (EV) stakeholder group working together to drive adoption of plug-in EVs and EV charging infrastructure through state-based opportunities. The group meets quarterly to discuss EV infrastructure development in Maine.

### E2 Tech

Member-based organization comprised of individuals, businesses and organizations that seek to build Maine's environmental and energy technology economy.

## Policy Information and Advocation

### Natural Resource Council of Maine

Nonprofit membership organization protecting Maine's environment. Providing up-to-date information on clean air policies and advocacy efforts with ways to get involved.

## Funding

### Efficiency Maine

Independent administrator for programs to improve the efficiency of energy use and reduce greenhouse gases in Maine. Rebates are available on their website.

### Central Maine Power

Maine's energy utility delivery company. Make-ready rebates available on their website.

## Meeting Maine's EV Goal

According to the US Department of Energy (DOE) EV-Pro Lite calculator, in order to support a target of 41,000 light-duty EVs by 2025, Maine would need to install 3,111 L2 charging plugs at workplaces, 209 publicly accessible charging plugs and 303 DCFC (L3).

-CMP, 2021

## Did You Know?

.....  
Before the pandemic, a network of several EV owners in Maine would meet for ride and drive events to provide EV enthusiasts the opportunity to test drive various EV models. Be on the lookout for upcoming ride and drive events!
